Innovation H 106 / ...

10/2009

We hereby present:

The new generation of
standard hot runner systems

The H 106/... offers optimised heating
technology at an unchanged price –
in addition to the well-known advantages
of Z 106/...

- Use of the flexible tubular heater
Z 11381/... (known from H 4010/...),
thereby maintenance friendlier.
- Shorter heating-up times.
- Homogeneous temperature structure.
